VETERINARY CERTIFICATE

Horse: Wild Ruler x Covert Miss '23
Signalment: Bay or Brown yearling colt
Brands: Left shoulder = Reverse B; R conjoined over dual headed arrow
Right shoulder = 15 over 3
Microchip: 985100012229747
Examined at: Bell River Thoroughbreds, Barn 10, Magic Millions, Adelaide

At the request of *Ms Carol Walsh* of Blueblood Thoroughbreds, a veterinary examination of the above horse was undertaken at the Magic Millions Complex, Adelaide on the 18th March, 2025. The purpose of the examination was to provide a Veterinary Certificate for inclusion in the Product Disclosure Statement (PDS) for syndication by Blueblood Thoroughbreds.

Clinical Examination

The clinical examination included heart, teeth examination, ophthalmic examination, limb flexion and joint palpation which were normal. The horse was examined at rest and at the walk. There was no evidence of previous abdominal surgery, infection or disease, lameness, laminitis or ataxia. There were two descended testicles palpable in the scrotum.

In my opinion, at this time, the Wild Ruler x Covert Miss '23 presented as suitable for purchase as a racehorse as can be determined from the examination performed as described. Wild Ruler x Covert Miss '23 is suitable for public syndication and mortality insurance.

I confirm that I do not have any current or intended future financial or other interest in the above-mentioned horse, the proposed syndication or Blueblood Thoroughbreds and this letter may be relied upon by prospective investors who invest in the horse.

Yours sincerely,

Dr Trent Jorgensen B.V.Sc

This certificate has been prepared for inclusion in the disclosure statement issued by the Syndicate and at the time of examination can be relied upon as a true document. The issuing veterinarian has no financial or other interest in the Syndicate or monies raised by the Syndicate. The examination was performed using EVA guidelines.
