The above horse was presented for examination at Annabel and Rob Archibald Racing at the request of Blueblood Thoroughbreds. The purpose of this examination was to provide a veterinary certificate assessing suitability to syndicate, for inclusion in the product disclosure statement (PDS) for syndication by Blueblood Thoroughbreds Pty Ltd.

Clinical examination of this horse was undertaken, which was within normal limits. This gelding did not display signs of lameness at the walk or at the hand trot. Flexion tests of all four limbs were within normal limits. No significant abnormalities were detected during this examination. No signs of previous abdominal surgery, lameness, ataxia, infection, or disease were apparent at the time of this examination.

Based on the scope of this examination, Superhero is suitable for the purpose of purchase and public syndication for racing, as well as mortality insurance.

I confirm that I do not have any financial interest in the sale of this horse, apart from the fee of the veterinary examination. I do not have any current or future financial interest in the proposed syndicate or Blueblood Thoroughbreds Pty Ltd. This letter may be relied upon by prospective investors of this horse.
