Veterinary Examination Report

Horse: Erin's Element 23

Sex: Colt

Brands:

Left: Stylised R L

Right: 2 over 3

Microchip: 985100012236782

Exam Requested by: BlueBlood Thoroughbreds

Location of Examination: Bella Jane Lodge, North Richmond, NSW.

Date of Examination: 12 February 2025

The above horse was clinically examined and observed at the walk in-hand. Sale repository radiographs and a pre-sale endoscopic examination video were not examined.

Clinical examination did not reveal any significant abnormalities and all vital signs were within normal limits, including heart and lung auscultation. The horse has good conformation and is evenly muscled. The horse has a good, strong walk with an even stride. Both testicles are currently undescended.

Within the scope of this examination, it is my opinion that this horse is fit to be syndicated and is low risk for future soundness issues and is suitable for mortality insurance.

Please do not hesitate to contact me if you have any further queries.

Regards,

Dr. Benjamin J. Graham BVBio/BVSc

This certificate has been prepared for the inclusion in the disclosure statement of the thoroughbred in question. This certificate is valid on the date of issue only and may be relied upon by potential investors; however, it does not constitute a "pre-purchase" examination. I certify that I have no current, nor contemplate, future interest in the above-described horse, other than in the supply of a veterinary opinion of suitability for racing.
