Veterinary Report

18th December, 2025

Horse: Fierce Impact x Stockist 2023

Signalment: 2yo bay Thoroughbred gelding

Microchip: 985100012246988

Brands: nsh: L P conj over bar osh: 1 over 3

This is to certify that I today examined the above horse at the request of Cavallo Park Stud. I had castrated this horse the previous day, 17th December. The procedure was a routine open castration and induction and recovery from anaesthetic were uneventful. The horse was administered Tetanus prophylaxis, 2g phenylbutazone, and procaine penicillin, and the surgical site looked excellent today however healing, with appropriate management, will take approximately 2 weeks.

Within the limits of the examination the horse appeared to be in good health and body condition. There was no pain reaction to limb flexion and no evidence of lameness at the walk or trot. No abnormalities were detected on palpation of the limbs or on auscultation of the heart and lungs. There was no evidence of infection or disease, laminitis, ataxia, or previous abdominal surgery. No specialised procedures such as endoscopy or radiography were requested or performed. Based on my examination I find the horse suitable for syndication for racing.

Cris Clark BVSc(hons) N5861

This certificate has been prepared as part of the disclosure statement for the syndication of the horse described above. This certificate may be relied upon by potential investors, however it does not constitute a "pre-purchase examination". I certify that I have no current, nor contemplate any future interest in the horse, other than to supply a veterinary opinion of the suitability for racing.

Furthermore, I am aware that this report may be used by Cavallo Park Stud for the purposes of syndicating and selling shares in the horse described above. If you have any queries please do not hesitate to contact me.
