Suitability For Syndication

3rd August 2026

Re: Home Affairs x On A Promise

Breeding: Thoroughbred

Microchip: 985100012242903

Description: 2yo Bay Colt

I examined the above-mentioned colt today at Cranbourne Training Complex on behalf of Blueblood Thoroughbreds for the purpose of assessing its suitability to be syndicated. The findings of this examination were within the normal limits of a clinical assessment. An apparent undescended testicle was noted that is not of significance in relation to a future career in racing. In my opinion this gelding is suitable for syndication.

No radiography, endoscopy, ultrasonography, electrocardiography or blood testing was requested or performed. This certificate or report is provided for inclusion in a product disclosure statement for the sale of shares and I consent to the report being included. This report does not equate to the EVA Five Stage Pre Purchase Examination certificate.

I confirm that I have no financial interest in the horse to which this report relates, other than the fact that I shall receive a fee for undertaking the examination and providing this report.

Please feel free to contact me if you have any questions or concerns.

Sincerely,

A handwritten signature in dark ink, appearing to be 'J Shadur', written in a cursive style.

Jason Shadur BVSc
